CBD SERVICES

CBD (short for cannabidiol) is a non-psychoactive compound found in hemp, part of the cannabis family of plants. The CBD used in our products and treatments will likely leave you feeling relaxed and restored, and will not impair judgment or physical capabilities. CBD has been shown to improve symptoms related to inflammation, arthritis, sports and occupational injuries, mood disorders and sleep disruption. Enjoy one of our signature services which will reduce muscle pain and stiffness, enhance relaxation, relieve joint pain, boost sensory stimulation and moisturize and condition your skin.

CBD FACIAL

This facial evokes the powers of self-healing and stabilizes the skin from the influence of outside elements. It will restore your skin to its natural order by hydrating, infusing moisture, and fortifying the natural barrier to help protect against harmful bacteria and toxins. No matter your skin type or condition, the secret to quick healing is adding CBD to your regimen.
